## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on Dec 9, 2002
- 2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.

### DETAILED ACTION

The amendment filed December 9, 2002 has been entered. Claim 6 is cancelled, and claims 1-2, 4-5, 7, 9-18 and 21-22 are pending.

#### *Specification*

The disclosure is objected to because of the following informalities:

Referencing of claims in the specification is improper.

Appropriate correction is required.

#### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-2, 4-5, 7, 9-18 and 21-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the recitation of "a line describing a longitudinal edge of *each directing element in the first row* is substantially tangent to a tip of *each directing element in the second row*" is indefinite. As shown in Figure 4, the number of directing elements in the first row 17 is greater than the number of directing elements in the second row 18. Therefore, each directing element in the first row does not directly correspond to the directing elements in the second row.

Regarding claims 21-22, the claims have a similar error as above with claim 1.

Art Unit: 3743

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 21 recites the broad recitation "means for imparting ... a swirling motion ... comprises elongated directing elements", and the claim also recites "said elongated directing elements are situated ... in the second row" which is the narrower statement of the range/limitation.

***Allowable Subject Matter***

Claims 1-2, 4-5, 7, 9-18 and 21-22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Art Unit: 3743

***Response to Arguments***

The rejections in view of Applicants' Prior Art Figures 1-2, Bossart et al, Rhodes, Bertrand et al, Tanaka et al, Kamiya and Zeuthen et al are withdrawn.

The Examiner acknowledges the open ended language of "comprising" in the claims. However, the claims clearly recite a direct relationship between *each directing element in the first row* and *each directing element in the second row*. Therefore, in the presence of an additional directing element in the first row 17, there would be no corresponding directing element in the second row 18.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
